Elliot Rabinovich

Professor, Supply Chain Management
John G. and Barbara A. Bebbling Professor
Co-Director Internet-edge Supply Chain Lab

Elliot Rabinovich’s research focuses on the interface between end consumers and supply chain management. In particular, his work examines Internet technology’s impact on the management of supply chains and service operations.

A key aspect of Professor Rabinovich’s research has been its practical applicability. He has worked with companies such as Baker & Taylor, Cartbound, Cooking.com, Dollar Tree Inc., eBags.com, FedEx Corp., iControl, Nexxus, PetSmart Inc., Relay Foods and Twitter. In 2011, he wrote a book that presents managerial insights from his research titled “Internet Retail Operations: Integrating Theory and Practice for Managers.” He has won several awards for some of the more than 30 articles he has authored in top journals, and has written case studies that have been used by faculty in courses at the University of Virginia’s Darden School of Business and the University of Minnesota’s Carlson School of Management.

As a globally recognized expert in the field of supply chain management Rabinovich has held business school appointments at Catholic University of Portugal, Korea University, UIBE – China and the University of Los Andes - Colombia. He currently maintains ongoing research associations with business faculty at Beijing Jiaotong University, the Massachusetts Institute of Technology, The Ohio State University, and the University of Oregon.

The University of Maryland, Professor Rabinovich’s alma mater, awarded him the Frank T. Paine Doctoral Award for Academic Achievement in 2001 and the Allan N. Nash Outstanding Doctoral Alumni Award in 2014. During his academic career, Professor Rabinovich has received fellowships from the Institute of Supply Management and funding from the National Science Foundation.
